I

Have had my fair share of getting tattooed in “scary” tattoo shops. If i am getting needles jammed in my skin, heavy metal music and grumbly old men don’t exactly make me feel at ease. That’s why i decided to open up what someone would call a “girly” tattoo shop. Comforting classical music plays in the background, the walls are covered in plants and inspirational quotes, and we have bubbly beverages at your wait-command. This tattoo shop was made by the girls, for everyone. We don’t judge you for getting a classic butterfly tattoo, heck, we will get one with you! You are safe in this shop. Feel free to ask any questions, tell us any secrets, and talk about your feelings with our staff. After we do some beautiful tattoo work on you, we hope you feel Pretty In Ink. Sincerely, Ava Kershner (Owner of Pretty In Ink)
